Resident at 406 Bismark, reported there was slow moving water. Earthworks came in to look at the issue, states there was a break at the T collapsing the main line. The Administrator authorized emergency repair of the main line to cease any continuation of breaking.

Klussman announced that SmiCo will begin the cleaning and camera work related to approximately 15,000 feet of sewer mains in the southwest and southeast section of the City. Tim Trigg, SmiCo Services estimated an early-June start date.

During this inspection, SmiCo will give an estimate of "point repairs" to the lines as required. This work will all fall under the recently approved Sewer Line Maintenance Service Agreement.

The Administrator will also call for inspection of at least 5 manholes in the St. Louis Street area. These are the five deepest manholes in our system. The goal for these inspections is to prepare them for relining (if required) following point of repair and CIPP of the mains entering the manholes. This progressive schedule will eliminate very costly future repairs should these lines and manhole fail in the future.

Alderman Nierman asked if there were options that would eliminate the deepest manholes and lines. If the City maintains a gravity flow collection system, these depths are necessary. However, there are mechanical solutions such as lift stations that would eliminate the required depth of manholes. Lift stations are expensive and require higher maintenance, however they may be considered as an option to manhole replacement for these deep manholes and pipes.

The Board then considered a request for forgiveness for water penalty for 101 S. Bismark. Donald Goett contacted the Administration prior to the May 10th due date and informed them that he had unexpected vehicle expenses and could not pay the water bill until his next paycheck (May 20).

The Board discussed the request and felt that Mr. Goett should not be disconnected for non-payment because he did notify the City ahead of the Due Date. This action will save the individual a \$25.00 reconnect fee. However, the felt that the late fee needed to be accessed.

Alderman Nierman made the motion to deny the request for forgiveness of the late fee of the water bill for 101 S. Bismark but not to interrupt service to this location and access a \$25.00 reconnection fee.

Alderman Lindemann seconded the motion.

There being no discussion, Mayor Brown requested votes be recorded by the Yeas and Nays, with the vote recorded 4 voting in the affirmative and 0 Aldermen voting Nay.

In the Administrators Report, Klussman stated that he will begin the Water Rate Analysis. This analysis will be prepared before the Sewer Rate Analysis because

our contract with the City of Emma allows rate adjustment only in even-numbered years, so if we need to adjust rates, we will need to do so prior to December 31, 2022.

Mayor Brown reported that the Tourism Meeting is set for May 31, beginning at 6:00 P.M.

Alderman Scherer-No Report.

Alderman Lindemann reported that he, Mayor Brown, and Alderman Nierman attended the Blackwater River public forum on May 10, at the Concordia Community Center.

There was a good attendance.

Mayor Brown stated that the presentation demonstrated that this is a long-term project. The citizens can expect years of work for funding and improvements-not months.

Mayor Brown stated that while this presentation covered much of the presentation which was held earlier in Knob Noster, this presentation also demonstrated the negative economic impact to communities for each day that Blackwater is closed.

The Mayor felt that this presentation developed really good feedback and audience participation.

Alderman Kruse-No Report.

Alderman Nierman requested a cleanup of the complex shed area, noting excess trash cans, metals, and other materials. Nierman stated that when attending games and seeing this area, it is embarrassing that the area looks like it does. He requested the Administrator coordinate cleanup, even if other Department's must assist the Parks Department.

Alderman Nierman has been contacted by parents concerning the soccer program. These parents expressed concern with the management of the program by K.C. Blaze and the fact that the City is not in the process.

Nierman stated that he would like to investigate if the City could assume management of the program because he felt like there was potential revenues. With the partnership with K.C. Blaze, we have shown no revenue for the year, and we have had no expenses.

The parents were frustrated with a lack of communication. There have been issues with the jerseys issued. Nierman feels that a City-managed program could provide a better experience for the players.

Upon conclusion of Alderman Nierman's Report, Alderman Lindemann wanted to recognize Cassidy Warren for providing transportation to an older resident from the parking lot of the Complex to the stands. Alderman Lindemann stated that the individual was appreciative due to the long walk they would have had to make.

At this time, Alderman Kruse made the motion to enter closed session pursuant to RSMo. 610.021 (3) ***(Hiring, firing, disciplining, or promoting of particular employees by a public governmental body when personal information about the employee is discussed or recorded. However, any vote on a final decision, when taken by a public governmental body, to hire, fire, promote or discipline an employee of a public governmental body shall be made available with a record of how each member voted to the public within seventy-two hours of the close of the meeting where such action occurs; provided, however, that any employee so affected shall be entitled to prompt notice of such decision during the seventy-two-hour period before such decision is made available to the public.
